April  
Bloom  
Butterflies  
Flowers  
Rain

Awaken  
Blossom  
Easter  
Grow  
Showers

Bees  
Bud  
Eggs  
March

# Thank You God for Spring

Dear God,  
Thank you for winter  
To cool and water the earth  
To give animals and plants time to rest  
Until spring's rebirth

Dear God,  
Thank you for Spring  
Sunshine and Rain  
When flowers, animals and plants  
Join us again

Thank you God for spring  
Cool beautiful days  
After a long treacherous winter  
I appreciate its beauty in so many ways

Thank you God for the bloom of new flowers  
I could take in their aroma and  
essence for hours and hours  
Thank you God for Earth's healing powers

Thank you God for rainy days  
I'd dance in the rain  
And bask in sun's rays

Thank you God for walks in the park between the trees  
Thank you God for buzzing bees  
Feeding on nectar, making honey  
Scattering pollen, when days are sunny

God, let us remember the importance of these  
What would our Earth be like without bees?

Thank you God for bright and sunny days  
The bright floral colors of Spring  
Thank you God for this wonderful seasonal blessing
